SCREAMIN' EAGLE FORK BRACE KIT

GENERAL

Kit Number

46595-06A

Models

For model fitment information, see the P&A Retail Catalog or the Parts and Accessories section of www.harley-davidson.com (English only).

Kit Contents

See Figure 1 and Table 1.

INSTALLATION

1. See Figure 1. Insert the brace between fork tubes. Spread the brace to fit tight to the fork tubes and take note of the spacing. Remove the fork brace and tighten screws (2).
2. Insert the fork brace between the fork tubes and set the desired height from top of the front fender.
3. Install the end caps (3 and 4) using screws (1).

⚠ WARNING

Failure to provide adequate clearance between stationary and moving parts can cause loss of control, which could result in death or serious injury. (00378a)

4. Tighten end caps screws (1).

NOTE

It is very important to tighten all screws evenly and carefully to prevent binding.

NOTE

Check clearance between the fork brace and front end components such as brake hoses and cables. Check all clearances throughout the travel range of the front suspension.
