Installation Requirements

⚠ WARNING

Rider and passenger safety depend upon the correct installation of this kit. If the procedure is not within your capabilities or you do not have the correct tools, have a Harley-Davidson dealer perform the installation. Improper installation of this kit could result in death or serious injury. (00308b)

GENERAL

Models

For model fitment information, see the P&A Retail Catalog or the Parts and Accessories section of www.harley-davidson.com (English only).

Verify that the most current version of the instruction sheet is used. It is available at: www.harley-davidson.com/isheets

Separate purchase and installation of additional parts or accessories may be required for proper installation of this kit. see the P&A Retail Catalog or the Parts and Accessories section of www.harley-davidson.com (English only) for a list of required parts and accessories.

INSTALL

Harley-Davidson cannot test and make specific recommendations regarding every accessory or combination of accessories sold, the rider must assume responsibility for safe operation of the motorcycle when installing accessories or carrying additional weight. Use the following guidelines when equipping a motorcycle or carrying passengers and cargo.

⚠ WARNING

See the Accessories and Cargo section in your owner's manual. Improper cargo loading or accessory installation can cause component failure and adversely affect stability, handling and performance, which could result in death or serious injury. (00021b)

- Bag **MUST** be installed with the following:
 - a. See Figure 6 or Figure 7. Secure four straps with quick-release buckles to luggage rack.
- When installed on a luggage rack, do not exceed the load limit of the luggage rack.
- Weight of bag and contents must not exceed weight limit of luggage rack 10 lbs (4.5 kg).
- Verify that all straps are secured to prevent strap contact with rear wheel during motorcycle operation.
- Verify that bag, mounting straps, rain cover and other components of luggage system do not cover or obstruct visibility of reflectors and lighting.
- Periodically recheck load.
- See owner's manual for recommended tire inflation pressure.

⚠ WARNING

Do not exceed the motorcycle's Gross Vehicle Weight Rating (GVWR) or Gross Axle Weight Rating (GAWR). Exceeding these weight ratings can lead to component failure and adversely affect stability, handling and performance, which could result in death or serious injury. (00016f)

- GVWR is the total weight of the motorcycle, accessories, rider, passenger and cargo that can be safely carried.
- GAWR is the maximum amount of weight that can be safely carried on one axle.
- GVWR and GAWR are shown on the information plate, located on the frame downtube.

Premium Shoulder Strap

1. See Figure 2. Hook ends of strap to D-rings on each side of bag.

NOTE

Store shoulder strap in bag before operating vehicle.

Figure 2. Shoulder Strap (Typical)
