Verify that all contents are present in the kit before installing or removing items from vehicle.

### GENERAL

#### Models

For model fitment information, see the P&A Retail Catalog or the Parts and Accessories section of [www.harley-davidson.com](http://www.harley-davidson.com) (English only).

Verify that the most current version of the instruction sheet is used. It is available at: [www.harley-davidson.com/isheets](http://www.harley-davidson.com/isheets)

Contact Harley-Davidson Customer Support Center at 1-800-258-2464 (U.S. only) or 1-414-343-4056.

## Installation Requirements

### ⚠ WARNING

Rider and passenger safety depend upon the correct installation of this kit. If the procedure is not within your capabilities or you do not have the correct tools, have a Harley-Davidson dealer perform the installation. Improper installation of this kit could result in death or serious injury. (00308b)

## REMOVE

1. **Softtail models:** See Figure 2. Remove pin (4) and E-clip (2). Retain for later use.
2. **Models equipped with Revolution Max engines:** See Figure 4. Depress spring loaded detent and remove clevis pin (1).
3. Save all hardware including torsion spring (1) for installation of **new** footpegs (3).

## INSTALL

1. See Figure 2. Insert short leg of torsion spring (1) into hole in **new** footpeg (3).

### NOTE

When performing the next step, verify that the torsion spring is positioned inside of the footpeg.

2. Align long leg of torsion spring (1) to hole in footpeg mount and insert.
3. Rotate footpeg (3) into position in clevis and insert clevis pin (4) through clevis, footpeg (3) and torsion spring (1).
4. **Softtail models:** Install E-clip (2).  
Special Tool: E-CLIP TOOL (HD-52369)
5. **Models equipped with Revolution Max engines:** See Figure 4. Install clevis pin (1).
6. Repeat steps for other side.

## Wear Tip Replacement

1. When servicing wear tip, remove existing wear tip from footpeg.
2. Apply two or three drops of threadlocker to threads of **new** wear tip.  
Consumable: LOCTITE 243 MEDIUM STRENGTH THREADLOCKER AND SEALANT (BLUE) (99642-97)
3. Install **new** wear tip to footpeg. Tighten.  
Torque: 3.38–4.74 N·m (30–42 in-lbs)
