## WINDSHIELD/WIND DEFLECTOR KIT

### GENERAL INFORMATION

Table 1. General Information

Kits	Suggested Tools	Skill Level <sup>(1)</sup>
57400270, 57400271, 57400279, 57400280, 57400281, 57400310, 57400526	Safety Glasses, Torque Wrench	
<i>(1) Tightening to torque value or other moderate tools and techniques required</i>		

### KIT CONTENTS

This kit contains one windshield/wind deflector.

### GENERAL

#### NOTE

This instruction sheet **may have a Supplemental Video** to assist installer in clarifying a certain part of the assembly. A linked video would be located at the end of this instruction sheet.

### Models

For model fitment information, see the Parts and Accessories (P&A) Retail Catalog or the Parts and Accessories section of [www.harley-davidson.com](http://www.harley-davidson.com).

#### NOTE

This instruction sheet references service manual information. A service manual for the year and model motorcycle is required for this installation and is available from:

- A Harley-Davidson dealer.
- H-D Service Information Portal, a subscription-based access available for most 2001 and newer models. For more information see *Frequently ask questions about subscriptions*.

### REMOVE

1. See Figure 1. Remove two inner screws (3) and nylon washers (4).
2. Loosen outer screws (3).
3. Remove windshield/wind deflector.
4. Leave rubber trim strip (2) in place.

### INSTALL

1. Put windshield/wind deflector into position.
2. See Figure 1. Install mounting screws (3) with nylon washers (4).

3. Make sure that the nylon washers are outside of windshield/wind deflector.
4. Tighten mounting screws from center to outside edge on both sides
5. Tighten screws.  
Torque: 0.9–1.3 N·m (8–12 in-lbs)

### MAINTENANCE

#### Care and Cleaning

#### NOTICE

Polycarbonate windshields/wind deflectors require proper attention and care to maintain. Failure to maintain polycarbonate properly can result in damage to the windshield/wind deflector. (00483e)

- Do not use benzene, paint thinner, gasoline or any other type of harsh cleaner on the windshield/wind deflector. Doing so damages the surface.
- Do not clean in hot sun or high temperature.
- Powdered, abrasive or alkaline cleanser damages the windshield/wind deflector.
- Sunlight reflections off the inside curvature of a windshield/wind deflector can, at certain times of the day, cause extreme heat build-up on motorcycle instruments. Exercise care in parking. Park facing the sun, place an opaque object over the instruments, or adjust the windshield/wind deflector to avoid reflections.

*NOTE*

*Harley-Davidson Windshield Water Repellent Treatment (Part No. 99841-01) is approved for use on Harley-Davidson polycarbonate windshield/wind deflectors.*
